SUMMARY

B. Tech CSE student with a basic knowledge of programming languages, a good interest in software development, and AI. Participated in hackathons and worked on your own on projects that were successful and of interest to you. Looking for an internship so that I can do my best with what I learn, and gain some practical experience in the tech industry.

SKILLS

- Languages: basic knowledge of C, Java, and Python
- Web technologies: basic HTML, CSS, and JavaScript
- Tools and frameworks: Git, SQL, Agile (beginner level)
- Problem solving
- Time management
- Fast learning and adaptability
- Ethical hacking and bug bounty
