Computer Engineer

React.js | Python | MySQL | PostgreSQL

SUMMARY

Computer Science Engineering student with hands-on experience building web applications using React.js, Python, and SQL databases. Comfortable working across frontend, backend, and basic database design. Interested in building practical, scalable solutions and improving problem-solving skills through real-world projects. Seeking an opportunity to learn and grow as a software developer.

EXPERIENCE

Sinergia Media Labs (Simelabs) | Front End Developer intern

[Jun 2026] – 1 Month

- Built responsive UI components using HTML, CSS and Bootstrap
- Optimized frontend layouts using Chrome DevTools for debugging and testing
- Collaborated with developers to improve interface responsiveness and user experience

EDUCATION

B.Tech in Computer Science Engineering

2023 – Present

SCMS School of Engineering and Technology

CGPA: 7.98

SKILLS

Languages: Python, Java, C

Frontend: HTML, CSS, React.js

Backend: Python, REST APIs

Database: MySQL, PostgreSQL, Supabase, Firebase

Tools: Git, GitHub

Soft skills: Team management, adaptability, decision making

PROJECTS

ESP32 Smart Attendance System (In Progress)

- Developing an IoT-based attendance system using ESP32 and web technologies
- Implementing automated attendance tracking via device identification
- Integrated Firebase Firestore for real-time attendance synchronization
- Designing mobile-friendly interface for teachers to monitor attendance

Warehouse Management System

- Built a task management web application using React.js and Supabase
- Implemented a Kanban-style board with drag-and-drop functionality
- Structured features for managing multiple tasks with real-time updates

SkillHive (Team Project)

- Worked on backend logic and database integration using Firebase and Supabase
- Designed and managed data flow for storing and retrieving user data
- Collaborated in a team of 4 members to integrate backend with frontend

College Room Reservation

- Developed a website for reserving vacant classrooms and event spaces for any events or meetings to avoid last minute confusions
- Admins or assigned individuals can manage the vacancy of each room
- Integrated database for data storage and retrieval

Restaurant Website

- Developed a responsive web application using HTML, CSS, JavaScript
- Enhanced user experience with interactive UI components
- Achieved 85% user satisfaction through testing

CERTIFICATIONS

- PostgreSQL Bootcamp – Udemy
- AI Workshop
- IEEE Project-Based Learning
- Google Prompting and AI essentials – Coursera

ACHIEVEMENTS & ACTIVITIES

- Participated in hackathons and technical competitions
- Accessibility Co-Chair, Yi Yuva
- Volunteered in conducting classes for juniors on web development and Git
- Volunteered in conducting MUN in our college as a part of the organising committee
